PROFESSIONAL SUMMARY

Software Engineering undergraduate at NSBM Green University progressing into 3rd year with hands-on experience developing responsive web applications and working with APIs, databases, and modern software engineering practices. Interested in Software Quality Assurance, Frontend Development, and Full-Stack Engineering roles. Strong focus on software testing, problem solving, usability, and continuous learning.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Component Architecture

Backend: Java, Spring Boot, REST APIs, JWT Authentication

Database: SQL, MySQL, PostgreSQL, Relational DB Design

Testing & QA: Manual Testing, Test Case Design, Functional & Regression Testing, API Testing, Postman, Bug Reporting

Tools: Git, GitHub, Postman, Figma, Vite, EmailJS

PROJECTS

Travel to Heaven

Frontend Web Application

React | TypeScript | Java | Spring Boot | PostgreSQL | REST API | Postman

github.com/Rejishanth36791/Travel_Website

- Developed a travel discovery and trip-planning web application enabling destination exploration, budget tracking, and story sharing.
- Designed responsive user interfaces using React and Tailwind CSS and integrated Spring Boot REST APIs backed by PostgreSQL.
- Tested API endpoints using Postman to validate HTTP response codes, payload structures, and database persistence.

Reji Portfolio

Frontend Web Application

React | TypeScript | Vite | Tailwind CSS | EmailJS

github.com/Rejishanth36791/Reji_Portfolio

- Developed a responsive personal developer portfolio showcasing technical skills, education, and project repositories.
- Implemented direct client-side inquiry delivery using EmailJS without backend infrastructure overhead.
- Configured cross-browser compatibility and verified mobile-responsive UI layouts across viewports.

FindMyMeds

Full-Stack Web Application

Spring Boot | Java | PostgreSQL / MySQL | React | REST API

github.com/Methu25/FindMyMeds

- Developed a pharmacy software application for inventory tracking, automated low-stock alert notifications, and sales reporting.
- Implemented relational database schemas and optimized SQL queries for efficient medicine search operations.
- Documented structured test cases and performed functional testing to ensure accurate stock search and alert dispatch.

PearlPath Redesign

UI/UX Accessibility Prototype

Figma | Human-Computer Interaction (HCI) | Wireframing | WCAG Accessibility

- Designed an HCI-focused travel platform prototype aimed at improving digital accessibility for older adults and digital novices.
- Created high-contrast Figma wireframes and interactive prototypes focusing on clear typography and simplified navigation.

EDUCATION

BSc (Hons) Software Engineering — NSBM Green University

2025 – 2028 (Currently progressing into 3rd year)

IT & English Dual Diploma / Certificate Course — IDM Eastern Campus

2023

ADDITIONAL SKILLS & LANGUAGES

Additional Skills: Git/GitHub | Postman | Figma | Agile/Scrum | Problem Solving | Technical Communication | Teamwork | Adaptability

Languages: English (Good) | Tamil (Native) | Sinhala (Average)
